

Minecraft As Classroom

CNIE, 20 April 2021

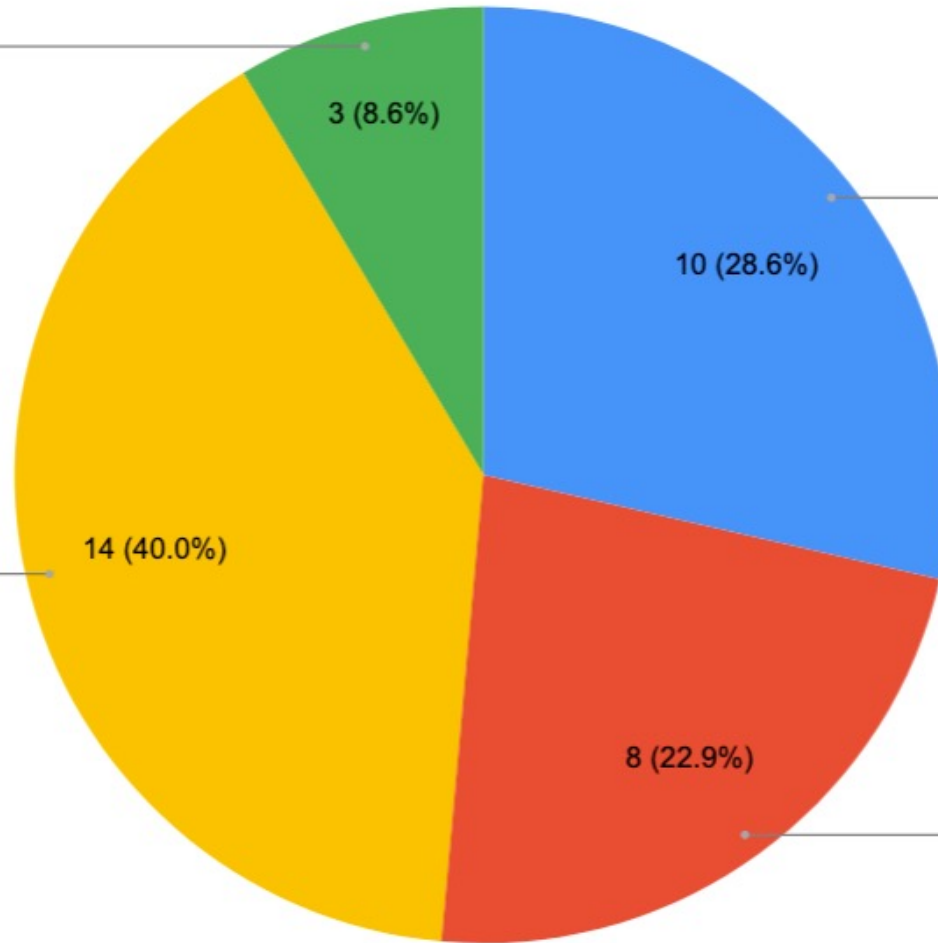

Ratio of Player Count by Play Style

Rarely Played
8.6%

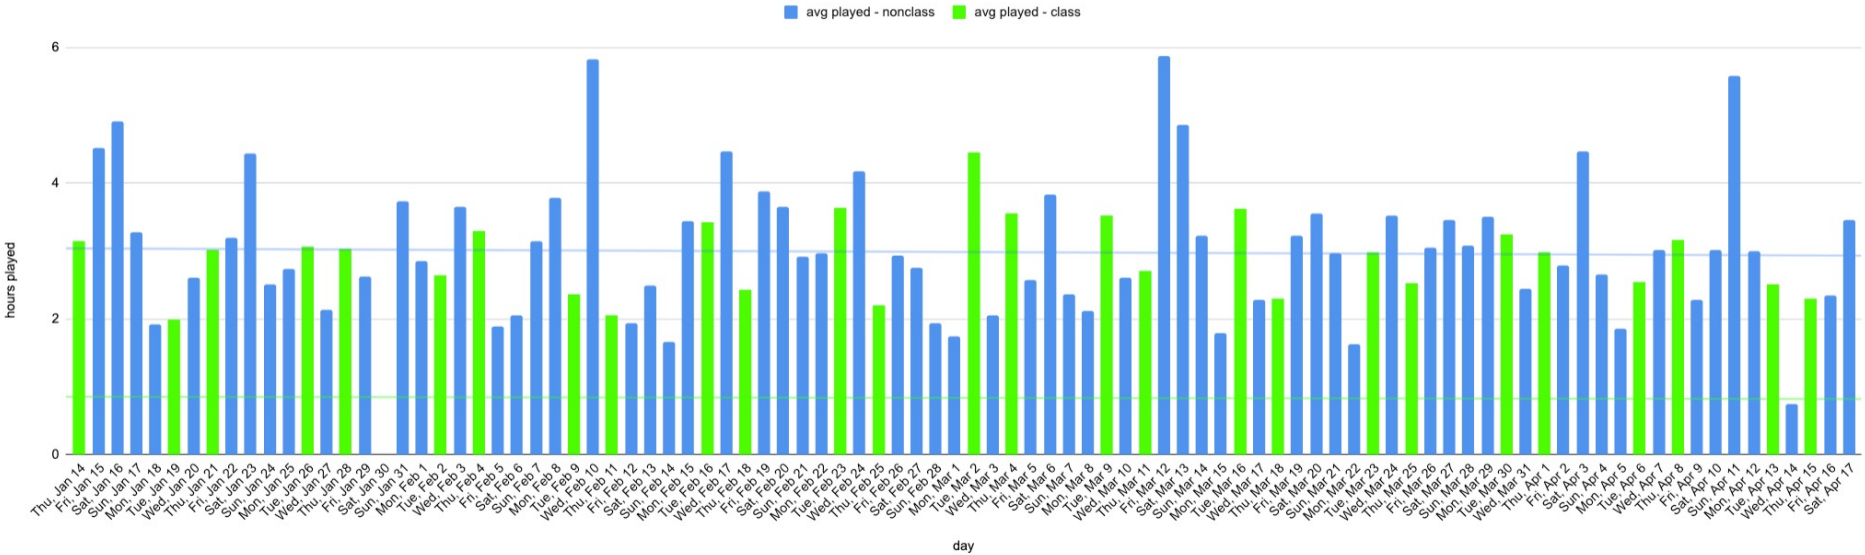

Played Mostly During Class
40.0%

Long Haulers
28.6%

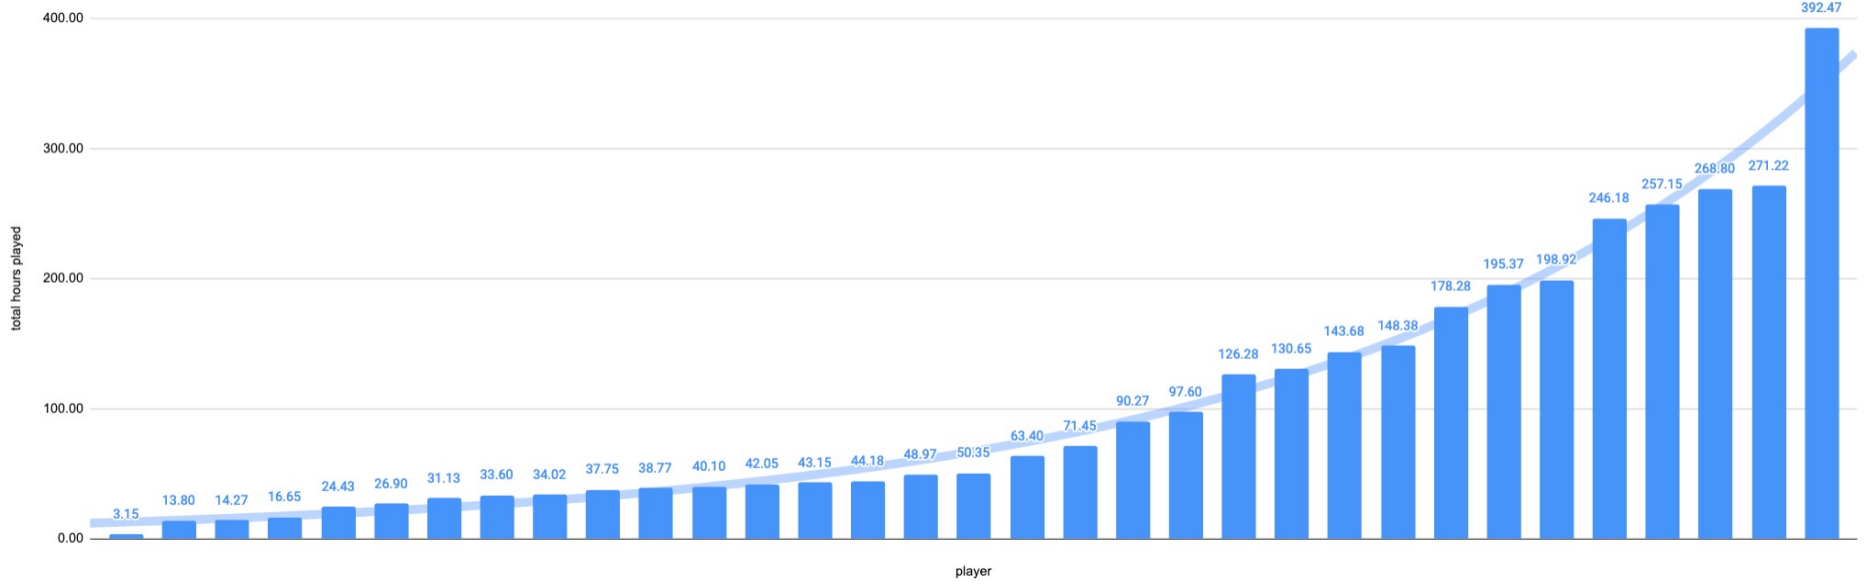

Played Mostly Outside Class
22.9%

Average Hours Played By a Player per Day

Total Hours Played By Player

the allegorical build

allegory: a way to focus on the material and linguistic nature of objects; also, the process of critical thinking

**video games are control
allegories**

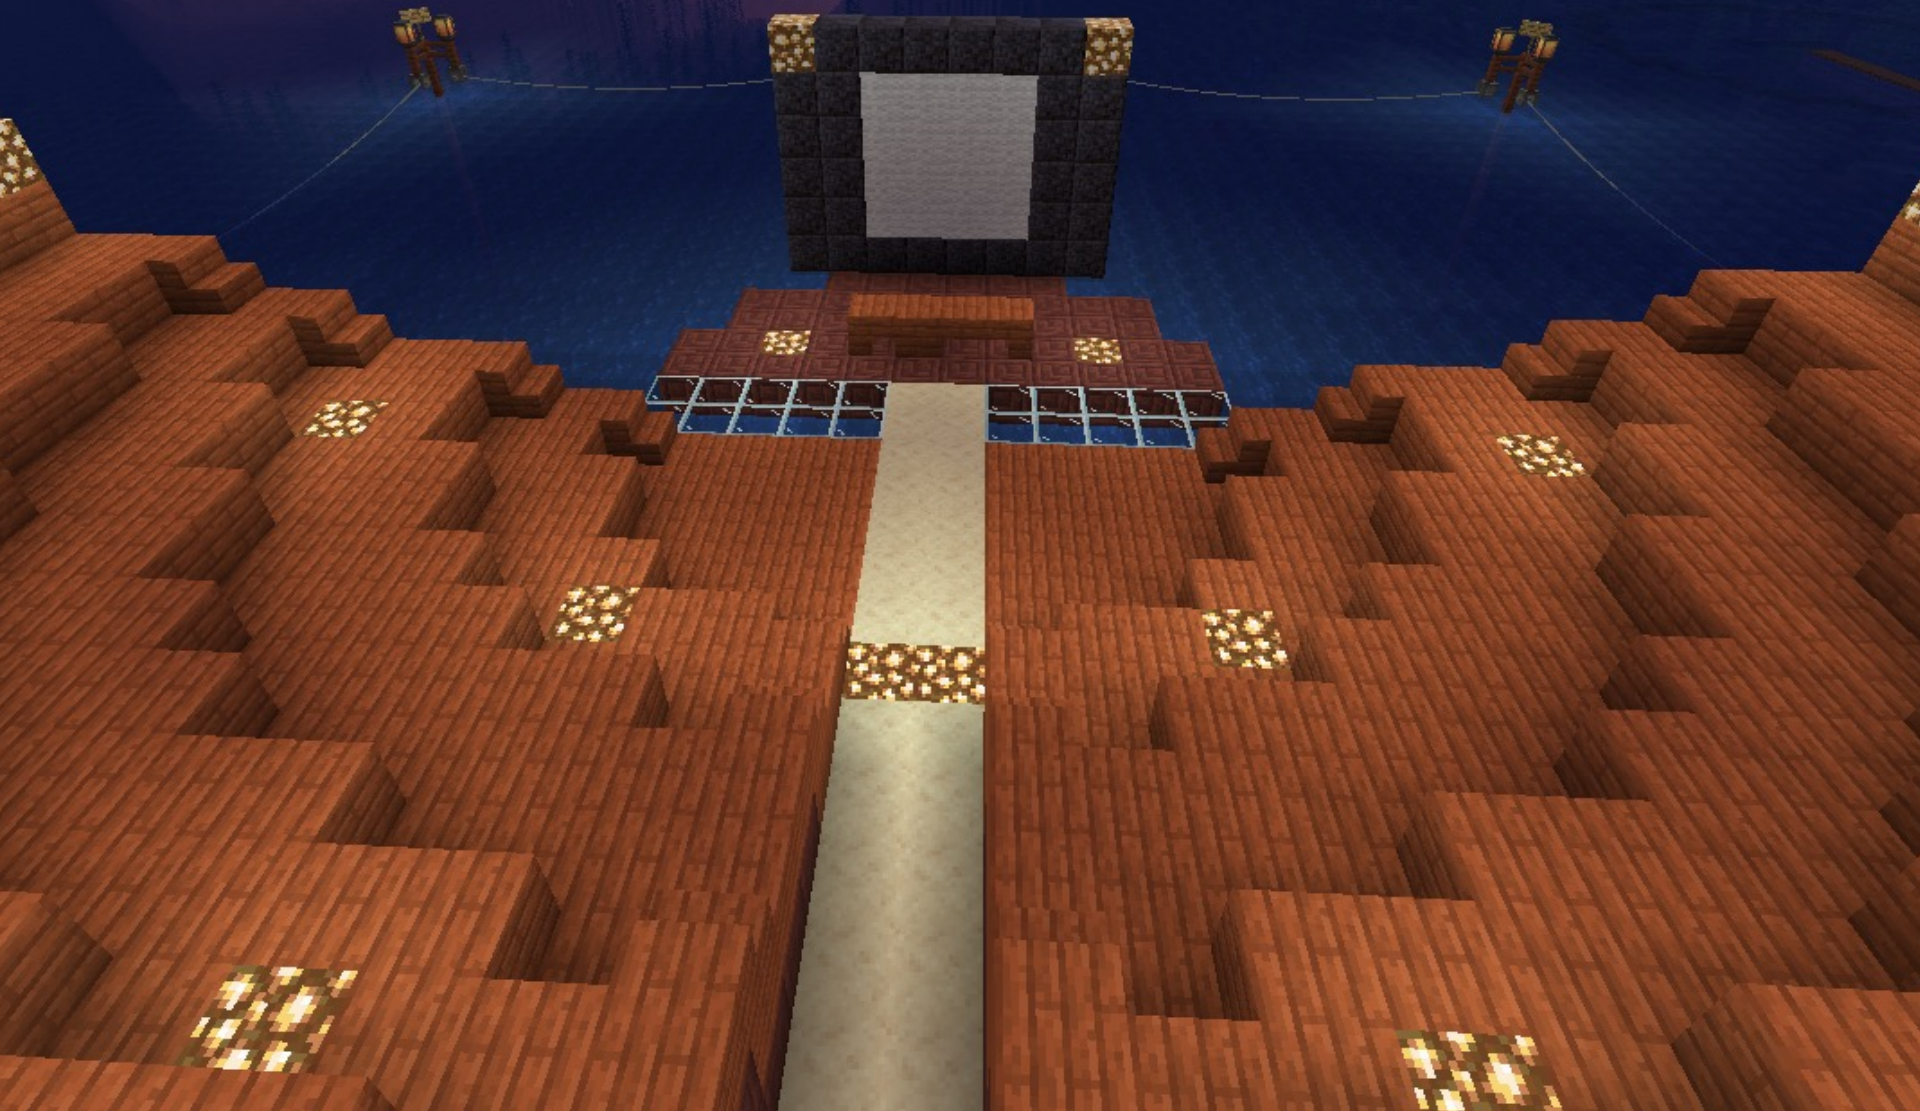

algorithm: a specific set of instructions for solving a particular type of problem

allegorithm: learning a game's procedural logic by experimentation i.e. making an allegory of the algorithm

the allegorical build: using the allegorism to think about something else e.g. the history and theory of modernity
